STOCKHOLM 60

Dear Joshua,

We shall soon have more opportunity to discuss the Stanford programme. Meanwhile, let us settle the more immediate plans for your trip after Stockholm.

I chose Liguria rather than Nice because (a) you mentioned it first, (b) at this time here, we try to reduce expenses to a minimum, and (c) we have some works going on in a house we have recently bought at San Michele and I am therefore pleased when I can take advantage of any opportunity of spending half an hour on the premises. On the other hand, there are places in the neighbourhood you have not yet seen and might enjoy seeing, that is why I thought you would not have minded going there again.

Please confirm your time of arrival and flight number. Otherwise, if I do not hear from you, I shall be at the Milan airport of Malpensa to meet you on flight SAS 683 due at 12.15p.m. on December 14th.

We are looking forward to seeing you and Esther again.

Yours sincerely,

(L.L. Cavalli-Sforza)

LLCS/at.

*All the best to George and Eva Klein,  
and, of course, to the King of Sweden.*
